

Nearly **25 million** children are born in India each year

Couples planning to start a family need to be well prepared to deal with childbirth and maternity-related expenses such as regular diagnostic tests, medicines, hospitalisation, etc.

- Max Bupa Health Insurance

Did you know the average cost to deliver a baby is around **Rs 45,000 to Rs 75,000?**

Infact, the cost of C-section deliveries has risen up to **Rs 2 lakh** in most urban cities in India

Maternity can make one happy but can sure be a very expensive affair.

How can you make pregnancy **less financially taxing?**
With a maternity cover which pays for:

Pre and post-hospitalization, along with nursing and room charges, doctor and anesthetist consultation, and surgeon fees.

Out of hospitalization charges of the newborn baby due to any medical complications, vaccination charges.

Fertility issues of the mother usually up to 90 days from the date of delivery.

Stand alone rider or an add-on benefit?

Fact! Most insurers do not provide maternity insurance to women who are already pregnant.

Why? Pregnancy is considered a pre-existing condition.

You must get a maternity cover as soon as possible.

Just keep in mind, the waiting period, sum insured, sub limits and co-payment of your insurance.

Don't let this life-altering journey be surrounded by any worries from and enjoy the benefits of excellent insurance cover with these maternity insurance plans today. Here are our top picks for you:
